1. I met with [REDACTED] and other members of their staffs in order to prepare them for the meeting tomorrow morning with Messrs. [REDACTED] 25X1A5a1
Mr [REDACTED] and representatives of the Public Building Service. We did agree on certain areas of priority which could be furnished to the ^{Contractor} Director immediately. We also agreed that this sort of priority would become more evident as the master plan was completed and that we should feed such priorities to the contractors as rapidly as they could be determined. I emphasized to [REDACTED] that I was disappointed in NPIC running out on their responsibilities for systems changes which have affected the A & E contract. I made it very clear that, inasmuch as they had declined to accept any responsibility for this, I would henceforth accept the responsibility and, furthermore, I would not make any more changes. I also emphasized that I would instruct Mr. [REDACTED] the A & E, that from now on he would accept all of his orders affecting the construction of the [REDACTED] from Mr. [REDACTED] of the Office of Logistics and that he had no authority to accept any orders from NPIC. (I am going to have lunch with [REDACTED] tomorrow, 25X1A9a
at which time I will lay this on the line.)

2. Shef Edwards, [REDACTED] briefed General Carter, Mr. Kirkpatrick, and myself on the "flag" cases. There were many in which General Carter had an interest in being briefed in more detail, and I have requested Colonel Edwards to prepare these, one or two at a time, for his review.

3. General Carter was particularly interested in the recent AEC announcement to the effect that in the future they would permit an employee under investigation to confront his accusers, cross-examine witnesses, etc. He asked us to find out and report to him without delay whether AEC acted with the approval of the Attorney General - in other words, on what authority and at what level did they take this action, and what are the implications for us. (I have asked Colonel Edwards to do this without delay.)
